

frozen

Dear frozen,

Your talent was crystal clear from a young age, qualifying for FPL at the age of 14 is not something many people are capable of. After a couple years of grinding, you got a well-deserved chance to show your full potential at the top, you got signed by mousesports under the leadership of karrigan! You quickly showed the world what you were capable of versus the best teams in the world. We wonder what your mum thinks about the things you have accomplished with mousesports.

After your insane performance at Flashpoint 3, you managed to qualify for your second Major with mousesports. The team has changed a lot since the last Major, but you guys have demonstrated you can beat the best in the business with the current lineup.

We can't wait to see your majestic hair, cute teddy bear, and most importantly your crisp headshots on stage in Stockholm. Good luck and go collect that trophy!
