

ropz

Dear ropz,

Crazy to think that you're the veteran in this lineup. Not only have you been with this org the longest, but you've also attended the most Majors, and lifted the most trophies. Even though you were only an official "Legend" once, your legacy inside this team and this game is already set, and you'll always be a legend to us.

Many games, different leaders, but always getting frags. You're one of the two Estonians to ever attend a Major, and even though HS won't be there this time, we firmly believe there will be more than enough HS(%) from you to make up for that fact.

It was actually at a previous Major that we all got to know your story, and it captured our hearts. But we all know that a diamond takes pressure and heat to form, and you're shaping up to be one hell of a jewel. We wish you all the success in the world, and many more trophies too.
